

TOMATO CLIPS - SUPERCLIP 25 MM

Plastic clip ring devised for fastening the thread to the plant, in order to maintain the plant upright, avoiding the touch of leaves and fruits with the ground. Its design allows an appropriate development without causing neither hanging nor movements during the growth of the plants.

Available in various diameters to suit every need.

► Special for:
TOMATO, COURGETTE AND PEPPER

USE BENEFITS:

- ✓ **Optimized design** which reduces transport and storage
- ✓ **Sturdy hinge** with extra grip
- ✓ **Secure closure:** the "click" confirms that the ring is closed during installation
- ✓ Thanks to its large vents, **facilitates the air circulation**, avoiding diseases as botrytis
